

Good Day Ron,

Hope all is well with you. Please feel free to examine the enclosed letter, then please seal and mail it.

Mr. Godbey relayed the message to me from Clyman + Estep that if I went ProSe they would "drop the hammer" on me. If I file any more law suits, they will add more charges and keep me in jail forever. He is terrified of what they may do to him. He noticed that they all had "safety off" on their weapons during the "felony stop" for misdemeanor warrants on 9-19-2000. They have repeatedly threatened him with aiding and abetting, etc.

Do you have a good suppression motion? When should I file for a suppression hearing?

I want to subpoena all the Mechanics Liens filed in 4 counties and all the prosecutions therefrom.

also: Clyman + Estep's Service Records
Bonilla's rental receipts ~ 3 years?
Carlos' pay records ~ Tax Forms
Pay records for specific improvements
Purported "eviction"

Do you have a good Heard Jury Challenge motion?

Thank, Steve
